

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## ORGANIZATION OF THE DEPARTMENT.

---

The direction and management of the Post Office Department are assigned by the Constitution and laws to the Postmaster General. That its business may be the more conveniently arranged and prepared for its final action, it is distributed among several bureaus, as follows: The Appointment Office, in charge of the First Assistant Postmaster General; the Contract Office, including the Inspection Division, in charge of the Second Assistant Postmaster General; the Finance Office, in charge of the Third Assistant Postmaster General; and the Money-order Office, and the office of Foreign Mails, each in charge of its superintendent.

**APPOINTMENT OFFICE.**—The First Assistant Postmaster General: To this office is assigned all business which relates to the establishment and discontinuance of post offices, changes of sites and names, appointment and removal of postmasters, route and local agents, and the giving of instructions to postmasters; also, the readjustment of postmasters' salaries, once in two years, under the act approved 1st July, 1864, and in special cases, as much oftener as may be deemed necessary. All applications for allowances, in post offices of the first and second classes, for rent, fuel, lights, and clerks, and all applications for allowances at separating offices, are examined in this office, and submitted to the Postmaster General for his decision. Postmarking and rating stamps, letter balances, blanks, wrapping paper, and twine are also furnished from this office.

**CONTRACT OFFICE.**—The Second Assistant Postmaster General: To this office is assigned the business of arranging the mail service of the United States, and placing the same under contract, embracing all correspondence and proceedings respecting the frequency of trips, mode of conveyance, and times of departures and arrivals on all the routes; the course of the mails between the different sections of the country, the points of mail distribution, and the regulations for the government of the domestic mail service of the United States. It prepares the advertisements for mail proposals, receives the bids, and has charge of the annual and occasional mail lettings, and the adjustment and execution of the contracts. All applications for the establishment or alteration of mail arrangements, and for mail messengers, should be sent to this office. All claims should be submitted to it for transportation service not under contract. From this office all postmasters at the ends of routes receive the statement of mail arrangements prescribed for the respective routes, and to it application should be made for mail bags, locks, and keys. It reports weekly to the Auditor all contracts executed, and all orders affecting the accounts for mail transportation; prepares the statistical exhibits of the mail service, and the reports to Congress of the mail lettings, giving a statement of each bid; also, of the contracts made, the new service originated, the curtailments ordered, and the additional allowances granted within the year.

**[INSPECTION DIVISION.]**—This division, formerly a distinct office, is now merged in and made part of the Contract Office. To this division is assigned the duty of receiving and examining the registers of the arrivals and departures of the mails, certificates of the service of route agents, and reports of mail failures; noting the delinquencies of contractors, and preparing cases thereon for the action of the Postmaster General; furnishing blanks for mail registers, reports of mail failures, and other duties which may be necessary to secure a faithful and exact performance of all mail contracts and service.

All cases of mail depredation, or violation of law by private expresses, or by the forging or illegal use of postage stamps, are under the supervision of this office, and should be reported to it.

All communications respecting lost money, lost letters, mail depredations, or other violations of law, should be directed "Contract Office, Inspection Division, Post Office Department."

All registers of the arrivals and departures of the mails, certificates of the service of route agents, and clerks in railway post offices, reports of mail failures, applications for blank registers, and reports of failures, and all complaints against contractors for irregular or imperfect service, should be directed "Contract Office, Inspection Division, Post Office Department."

**[TOPOGRAPHICAL DIVISION.]**—The Topographical Division of the department, attached to the Contract Office, consisting of the Topographer of the department and assistants, is charged with the preparation of the post-route maps and diagrams, and

## VI ORGANIZATION OF THE POST OFFICE DEPARTMENT.

with the keeping up of the geographical information requisite for the various branches of the postal service.

Communications for this division (including contributions of maps and diagrams, which, for their general utility, are earnestly requested) should be directed "Second Assistant Postmaster General, Topographer, Post Office Department."

**FINANCE OFFICE.**—The Third Assistant Postmaster General: To this office is assigned the issuing of warrants and drafts in payment of balances reported by the Auditor to be due to mail contractors and other persons, and the superintendence of the rendition by postmasters of their quarterly returns of postages. It has charge of the DEAD-LETTER OFFICE, and of the issuing of postage stamps and stamped envelopes for the prepayment of postage.

To the Third Assistant Postmaster General postmasters at draft offices should direct their letters reporting quarterly the net proceeds of their offices, and those at depositing offices their certificates of deposit; to him should also be directed the weekly and monthly returns of the depositaries of the department, as well as all applications and receipts for postage stamps and stamped envelopes, and for dead letters.

**MONEY-ORDER OFFICE.**—To this office is assigned the general supervision and control of the postal money-order system throughout the United States.

**OFFICE OF FOREIGN MAILS.**—To this office is assigned the supervision of the ocean mail-steamship lines, and foreign postal arrangements.

TO THE AUDITOR FOR THE POST OFFICE DEPARTMENT postmasters should address their quarterly accounts and all correspondence in relation thereto.

### POST ROADS.

Post roads, by law, are—1. Those roads of the country which are declared post roads by various acts of Congress. 2. All waters on which steamboats regularly pass from port to port. 3. The navigable canals of the several States for the time during which the mail may be carried thereon. 4. All railroads and plank roads in the United States. 5. Those roads on which the Postmaster General causes the mail to be carried from the nearest post offices, on legally declared post roads, to court-houses not otherwise provided with the mail. 6. All roads to special offices. 7. And such as are established by the Postmaster General as post routes under the tenth section of the act of March 3, 1851, in cities and towns where the postmasters are appointed by the President of the United States.

The general authority to establish post roads is not vested in the Postmaster General, nor can he extend or lengthen those already established. He can only place mail service on such roads as have been declared post roads by act of Congress, and for the expense of which appropriation has been made.

### MAIL CONTRACTS.

The Union is divided into four Mail Contract Sections. A letting for one of these sections occurs every year, and contracts are made at such lettings for four consecutive years, commencing on the first day of July.

The sections and their current contract terms are—

1. Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, and New York; current term to end 30th June, 1873.

2. New Jersey, Pennsylvania, Delaware, Maryland, (including District of Columbia,) and Ohio; current term to end 30th June, 1872.

3. West Virginia, Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas, Arkansas, and Indian Territory; current term to end 30th June, 1871.

4. Tennessee, Kentucky, Missouri, Iowa, Illinois, Indiana, Michigan, Wisconsin, Minnesota, Dakota, Nebraska, Kansas, Colorado, New Mexico, Arizona, Utah, Montana, Idaho, Washington, Oregon, California, Nevada, Alaska, and Wyoming; current term to end 30th June, 1874.
